

# D6x6 NAVIGATOR<sup>®</sup> HORIZONTAL DIRECTIONAL DRILL

**COMPACT SIZE.** With a footprint of 36" (91.4 cm) wide and 115" (292.1 cm) long, the compact D6x6 fits through the typical neighborhood gate.

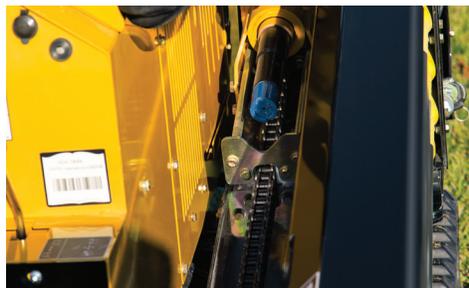

**OPERATOR'S STATION.** The D6x6 has dual axis control valves. Vise controls are integrated into the right- and left- hand joysticks. With this design, the operator's hands do not have to leave the joystick to run the controls.

**SERVICEABILITY.** A full-length hood opens to expose the engine and hydraulics for easier maintenance and service.

**POWER-TO-SIZE RATIO.** The D6x6 has the most compact footprint in its class of horizontal directional drills. With a 25 hp (18.6 kW) engine, the unit has 550 ft-lb (745.7 Nm) of rotary torque and 5500 lb (2494.8 kg) of thrust/pullback.

**CARRIAGE/WISE SPEED.** With a maximum of 130 fpm (39.6 m/min), the carriage speed enables the drill rods to efficiently move up and down the rack.

**ON TRACK.** With turf-friendly tracks, the D6x6 is a good option for contractors working in areas where minimal disturbance is key, such as parks, residential and commercial areas, including sidewalks and driveways.
