

D10x15 S3 NAVIGATOR®

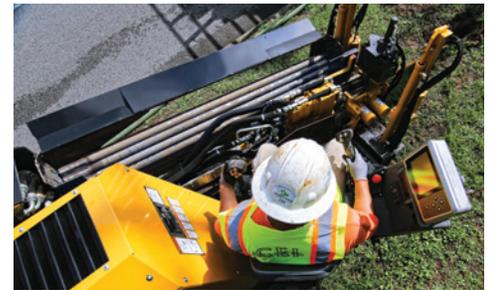

HORIZONTAL DIRECTIONAL DRILL

MORE LENGTH PER DAY. Featuring an increase of almost 11% in carriage speed over its predecessor — the D9x13 S3 Navigator® HDD — the drill offers fast cycle times and enhanced productivity on the jobsite.

GET TO WORK FASTER. The D10x15 S3 features a ground drive speed of up to 3.3 mph (5.3 km/h) — helping make jobsite entry and departure go more quickly.

NARROW FOOTPRINT. With a slender profile of 44" (111.8 cm) in width, the drill can easily maneuver within narrow jobsites and position side by side with a mix system on a trailer, helping to increase productivity when working in urban spaces.

COMPACT BUT POWERFUL. The D10x15 S3 stands out due to its compact design and light weight. With 10,000 lb (44.5 kN) of thrust/pullback and 1500 ft-lb (2033.7 Nm) of rotational torque, it has the power required for tough ground conditions and pulling reamers.

REDUCED NOISE. The D10x15 S3 is designed to limit its operating noise, creating less neighborhood disturbance and enabling easier communication among crew members.

SERVICEABILITY. A one-piece, hinged hood offers durability as well as convenient access to daily key service points.
